OBJECTIVE

Dedicated AI & Machine Learning undergraduate with knowledge of Python, Machine Learning, and Data Structures & Algorithms. Seeking a challenging opportunity to apply my technical and analytical skills, contribute to organizational goals, and grow as a software professional through continuous learning and innovation.

EDUCATION

Vignan's Nirula Institute of Technology and Science for Women, JNTUK, Guntur Bachelor of Technology in CSE-Artificial Intelligence & Machine Learning	📅 2024 – 2027 Percentage: 84.06%
Audisankara College of Engineering & Technology, Gudur Diploma in Computer Science	📅 2021 – 2024 Percentage: 90.15%
Z.P. Girls High School, Chennur-2 Secondary School	📅 2020 – 2021 Percentage: 99.8%

TECHNICAL SKILLS

- **Programming Languages:** Python, Java.
- **Web Technologies:** HTML, CSS, React, Tailwind CSS.
- **Databases:** PostgreSQL.
- **Machine Learning:** Scikit-Learn, Random Forest, XGBoost, Model Evaluation, Matplotlib.
- **Frameworks:** Flask, Django.
- **Development:** REST APIs, Responsive Web Design.
- **Core Computer Science:** DSA, OOP, DBMS, Operating Systems, Computer Networks.
- **Tools:** Git, GitHub, Postman, VS Code.
- **Soft Skills:** Problem Solving, Presentation, Adaptability.

PROJECTS

- **EcoPackAI – AI-Powered Sustainable Packaging Recommendation System** [\[View Project\]](#)
Technologies: Flask, Python, Random Forest, XGBoost, HTML, CSS
 - Developed an AI-powered packaging recommendation platform to address sustainability challenges in product packaging.
 - Implemented Random Forest and XGBoost models achieving 92% prediction accuracy.
- **Smart Health Surveillance System Using Machine Learning & IoT** [\[View Project\]](#)
Technologies: ESP32, MAX30102, MLX90614, R305, IoT, Machine Learning
 - Designed and developed an IoT-based healthcare monitoring system for real-time tracking of vital health parameters.
 - Integrated fingerprint authentication and sensor-based monitoring to enhance patient security and healthcare accessibility.
- **Travel Trip Using Python With Django** [\[View Project\]](#)
Technologies: Python, Django, HTML, CSS
 - Built a web-based travel planning platform using Django and Python to simplify access to destination-specific services and information.
 - Developed modules for hotels, restaurants, and local attractions, improving trip-planning efficiency for users.

- **College Website Using HTML & CSS**

[\[View Project\]](#)

Technologies: HTML, CSS

- Created a responsive college website to provide structured academic and institutional information.
- Designed an intuitive user interface with mobile-friendly layouts, enhancing accessibility and user experience.

EXPERIENCE

- **Virtual Internship 6.0 – Infosys Springboard, Remote** Dec 2025 – Mar 2026

- Developed EcoPackAI, an AI-powered packaging recommendation system using Flask and Machine Learning.
- Applied Random Forest and XGBoost algorithms for predictive analytics.
- Participated in project development, testing, deployment, and debugging activities.

- **Industrial Training – Aacharya, Gudur** Nov 2023 – May 2024

- Completed 6-month intensive Python training covering OOP, data structures, algorithms, and application development.
- Built mini-projects and solved programming challenges to strengthen problem-solving skills.

CERTIFICATIONS

- **AI Agent Hackathon Certificate** – Participated in the AI Agent Hackathon at VR Siddhartha Engineering College and developed an AI-powered Financial Fraud Detection system.
- **NPTEL: Human-Computer Interaction (HCI)** – Score: 98% (Elite + Gold Badge), Ranked among the Top 5 Performers.
- **Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate** – Oracle University (July 2025).
- **NPTEL: Programming in Java** – Score: 76% (Elite + Silver Badge).
- **SkillDzire Internship** – Completed Internship in Artificial Intelligence and Machine Learning.
- **Industrial Training Certification** – Certified in Python Programming from Aacharya during Diploma.

ACHIEVEMENTS

- Selected for Smart India Hackathon (SIH) 2025 after successfully qualifying in the internal institute-level hackathon round.
- Selected for the National Science Fair in Class 8 (Project: Automated Sewage Machine)
- Won 2nd prize in Ideathon (Project: Automated Flood Rescue with Smart Robots and Drone)
- Secured First Prize in the Chess Competition conducted as part of Women's Day celebrations at the college.
